

New Template: MP Whitedorn

We and clubjoomla.com released MP Whitedorn, a new fixed width (optimized for screenresolutions of 1024x768 or more) commercial template for Joomla 1.5.x.

It is a bright, clean and fast blog styled template and can be used for personal blogs, corporate blogs or other "non-blog" smaller websites. The Template based on a two columns layout.

The package includes the used, ready sliced and layered .psd Photoshop source file, the templates installation file and a small documentation.
